

## **Assessment: Canada's Major Trading Partners**

### **Objective:**

To evaluate the student's understanding of Canada's major trading partners.  
To assess the ability to locate these trading partners on a map.  
To analyze the geographical aspects of Canada's international trade relationships.

### **Instructions:**

1 Identify Canada's Major Trading Partners:

2 List and provide brief descriptions of Canada's major trading partners as of the most recent available data. Include information on the types of goods and services exchanged between Canada and each trading partner.

United States

China

Japan

United Kingdom

Mexico

**Map Identification:**

locate and mark the capital cities of Canada's major trading partners on the map.

Washington, D.C. (United States)

Beijing (China)

Tokyo (Japan)

London (United Kingdom)

Mexico City (Mexico)

**Analysis:**

Make an analysis of the geographical distribution of Canada's major trading partners.

Answer questions such as: How does proximity or distance influence trade relationships? Are there commonalities in the regions where these partners are located?

Research recent developments or changes in Canada's trade relationships.
