

Understanding Checklist for Assessment

This checklist not only ensures that students have grasped the fundamental concepts but also encourages them to reflect on their learning process, identify areas for improvement, and acknowledge their progress.

Knowledge of Canadian Industries

- Identifies key Canadian industries recognized for international success.
- Names at least one Canadian company that has achieved international recognition and can describe its field of operation.

Understanding of Factors Behind Success

- Understands the role of innovation and technology in the success of Canadian companies internationally.
- Can explain how trade agreements benefit Canada's international trade.

Awareness of Canada's Trade Dynamics

- Knows Canada's major trade partners besides the United States.
- Understands the significance of diversifying export destinations and import sources.

Comprehension of Trade Agreements

- Recognizes the names and purposes of major trade agreements Canada is a part of.
- Can describe how these agreements affect Canada's trade relationships and business opportunities.
- Critical Thinking and Application
- Applies knowledge of trade dynamics to discuss potential future trends in Canada's international trade.
- Critically assesses the impact of global economic changes on Canada's trade patterns.

Reflective Thinking

- Reflects on personal understanding and misconceptions about Canada's international business before and after the assessment.
