

## Test 1 Review

1. Identify Parent Function given
  - a. Equation
  - b. Graph
2. Given equation and graph, determine if it's a function or not function. Explain.
3. Find Domain and Range given
  - a. Equation
  - b. Graph
4. Transformations
  - a. Describe the transformations given equation/graph
  - b. Graph the function using mapping rules
  - c. Write equation given transformations descriptions
5. Piecewise Function
  - a. Graph given equation
  - b. Find equation given graph
  - c. Continuous or discontinuous
