

We should understand some of the problems international students might encounter at school.

For example: language barriers

feeling lonely

not understanding school rules

homesickness

Then, let's summarize and define the problems:

International students feel disconnected from school due to language barriers and a lack of support.

What can be done?

English tutoring classes

Cultural activities

Action: Each international student will be paired with a local student.

The partner will help them get to know the school and make friends.

Test

Other students found the idea helpful.

They suggested adding group chats and activities.

Demonstration Summary

Our solution is to help new partners, aiming to help international students integrate into school and make friends.
